REVIEWS

Secrets of Your Majestic Heart Your Sacred Journey to Healing

"We are all vulnerable to various forms of trauma, which can significantly impair our life experiences.

Trauma must not define our state of being. The author has made it her life's work to acquire the fundamental insights and techniques that engage the heart's natural healing capacity. For this we are most grateful.

Based on current trauma theories and approaches, this textbook provides clarity and guidance for educators, students, professionals, and anyone interested in its broader application to the human experience. The fundamental insight is really about trusting the heart as our experiential center for intuition and healing. When we see from the heart instead of the eyes, our whole perspective changes!."

—Bruce Parcey, HBSW, SSW, has been a professor at Northern College for 28 years.

THE JOURNEY

The Inspiring Journey of Catia Carrier A Story of Resilience, Healing, and Empowerment

Q: How did your youth bring you to your healing and intuitive gifts?

Catia Carrier (CC): I was born in Chatham, New Brunswick, on the Canadian Forces base where my father was stationed in the Royal Canadian Air Force. My early years were marked by the nomadic lifestyle characteristic of military families, and I grew up in various provinces across Canada. However, my heart found its sanctuary in Northern Ontario, where I now resides in a forest, her oasis, amidst the wildlife I cherish.

Raised in the rich tapestry of Indigenous culture, I was deeply connected to traditional healing practices and inspired by the natural world around me. Despite this supportive cultural backdrop, I faced numerous adversities. Severe childhood trauma, racism, discrimination, traumatic grief and loss, and intergenerational trauma were formidable obstacles in my path. Yet, these adversities did not deter me. Instead, they forged my resilience and shaped my profound connection to a higher spiritual power guided by instinct and clairvoyant intelligence. Through these challenges, I discovered the power within my heart, emerging as an empath with an unyielding spirit.

Q: How did your life culminate into the professional healing business you're in now?

CC: My journey was one of continuous healing and searching for meaning and purpose. I confronted my trauma with the unwavering strength of a warrior and transformed my pain into a source of inspiration and guidance for others. As a single mother, I raised my now adult son while completing a master's Degree in Psychology. My academic and personal experiences paved the way for my career in psychology, mental health, and trauma healing.

Today, I am a successful business owner of Majestic Professional Consulting, specializing in trauma recovery. My practice is not just a profession but a calling, where I bring forth my wisdom, honed through 24 years of research and practice. My sacred methods and signature framework, known as the Secrets of the Majestic Heart and Trauma Recovery, are designed to heal trauma from the heart, promoting deep and transformative healing.

My work is distinguished by my unique approach and intuitive healing abilities. I'm known as an animal whisperer, nature goddess, and intuitive healer, and my gifts have inspired and empowered individuals in the mental health and trauma field, guiding countless souls towards life-changing growth, emotional intelligence, and spiritual freedom. My healing journey, inspired by the heart's messages, has been one of profound resilience and remains dedicated to assisting others in navigating trauma, just as I did from a young age.

Q: Who is your book for?

CC: *Secrets of Your Majestic Heart: Your Sacred Journey to Healing* serves as a guide for educators in colleges and universities across the fields of social work, psychology, trauma, Indigenous studies, and social sciences. I also wrote it with the hopes that it will contribute to collective healing in society and as a master guide in mental health and addiction treatment centers, educational agencies, and healing organizations. The in-depth knowledge is shared with the goal of empowering those who have suffered from trauma-related experiences and teach them to master their own healing.

I feel that my work serves as a beacon for those seeking solace and strength in their healing journey, providing tools and insights that are both practical and profoundly transformative.

Q: Can you share more on the power of the heart for healing as you share in the book?
How will this help people?

CC: The knowledge and wisdom imparted in the book promote peace, harmony, self-empowerment, and self-determination for trauma survivors. Throughout the text, there is a recurring emphasis on the heart's inner doctoring abilities, allowing readers to tap into their superpowers of self-discovery and healing. This holistic approach fosters the creation of a future where youth are empowered for self-directed healing, inspiring a generation to find strength and resilience within themselves.

Q: Can you share about the content in the book specifically written for Indigenous peoples?

CC: The Indigenous chapters in my book were written with the empathetic touch of someone who has intimately known the depths of intergenerational trauma and the profound efficacy of traditional healing practices. My intention was to empower individuals who suffer from post-traumatic stress by drawing from my own experiences and the collective wisdom of my ancestors.
